AQUASAC ECONOMY PHONE CASES

We have reintroduced our first generation Aquacclip from 1995-2004.

These two products are marketed under the **Aquasac** brand. Visit www.aquasac.co.uk
It gives Distributors and Resellers an opportunity to compete at the lower end of the market.
These two SKUs come with simpler packaging (as shown on right).

- ▶ Submersible to IPX8
- ▶ Made in the UK
- ▶ Built from biodegradable UV resistant TPU, with optically clear LENZFLEX lens window

WATERPROOF FIRST AID KIT BAG

This is a waterproof drybag especially for your First Aid Kit. Brilliant for watersports, paddling, sailing and expedition use. It's made from tough 500D vinyl to withstand all the knocks you experience on the trail. It's really simple to seal - just roll the top down 3 times. The bright red colour means you can easily spot your First Aid Kit in an emergency.

- ▶ Stormproof to IPX6.
- ▶ Built from 500D polyester-reinforced PVC tarpaulin
- ▶ Capacity: 183 cu in / 3 litres
- ▶ 3-roll seal.
- ▶ Made in China.

NEW!

WHAT DOES WATERPROOF MEAN?

IP Code:	Protected against:	Aquapac term:
IPX1	Vertically falling water drops	Rainproof
IPX2	Vertically falling water drops - enclosure.....	Rainproof
IPX3	Water falling as a spray falling at any angle up to 60° from vertical	Sprayproof
IPX4	Water splashing from any direction.....	Splashproof
IPX5	Water jets - water projected at all angles through a 0.25in/6.3mm nozzle.....	Stormproof
IPX6	Powerful water jets - water projected at all angles through a 0.49in/12.5mm nozzle	Stormproof
IPX7	Protected against immersion for 30 minutes to a depth of less than 3ft/1m	Submersible
IPX8	Protected against continuous immersion to a depth of 30ft/10m (see below)	Submersible

When we patented the AQUACLIP sealing system it was submitted for independent testing. The IPX8 testing was for 30 minutes at the equivalent of a depth of 30ft/10m. Some of the Aquaclips proved waterproof at very much greater depths. Our Keymaster case for example tested IPX8 to 165ft/50m.

ABOUT US

Aquapac International is a British company headquartered in London

Leading light in the waterproof case world for over 35 years

Sold in over 60 countries worldwide

Sold over 5 million waterproof cases

A US company, Aquapac USA LLC in Florida with a distribution hub in New York state

Honoured with no less than three Queen's Awards: **Export**, **Innovation** and **Enterprise**.

“Aquapacs are for active people enjoying the outdoors and for professionals in challenging situations who all need to safeguard their valuables and keep their equipment fully operational.”

We create functional, protective solutions with practical carrying systems by using innovative design with sustainability built into the product life and into the manufacturing processes and materials.

We want to empower people to **immerse themselves** worry free in their activities wherever they go.

Our products are used by hikers, mountain climbers, holiday makers and water sports enthusiasts. Aquapacs are also used by Search & Rescue and Emergency Services, Coast Guards, Lifeguards, Forestry managers, Shipping companies and by many other outdoor workers all over the world. We have supplied some of the leading companies and organisations in the world with bespoke products: Nokia, Sony, Jaguar, Range Rover, the Winter Olympic Games, the Royal Navy, the US Coast Guard and many others.

Our mission is simple: **design and manufacture high quality products**. We don't cut corners as people deserve top-notch gear to protect their equipment. Our submersible cases are all made in our own factory. We design and sub contract the manufacturing of our back packs, day sacks and other splashproof products to trusted suppliers in the Far East who have proven records in these fields.

We look to offset our environmental impact every year in everything we do. We love nature, the great outdoors and we all have a role to play to maintain it.

We aim to treat you the way we'd like to be treated ourselves. Our customer service team has a simple mandate - to make you a happy customer who'll come back for more.

HOW DID ALL THIS START?

THE FOUNDER'S [MAX'S] STORY

In April 1983, a friend, Yan, came to me with an idea. He had developed a bag in polythene and wood, with another friend, Ben, to waterproof a Walkman. The prototype actually worked. We all loved to windsurf and the idea of listening to music while we surfed was inspired.

We set up the company in September 1983 and put our first production case onto the market for the London Boat Show in 1984.

At that show, the Walkman case had some interest but many people asked us to make a case for VHF radios. Which became our second case, the AQ2, and that started selling immediately worldwide. We sold to the Royal Navy, other Navies and Coast Guards.

Our products were being bought in over 30 countries within a year. My friends, Yan and Ben, left the company in 1985, but my brother Mike joined me in 1987.

In September 1982, I went windsurfing in Morocco. I was swept out to sea when the wind changed 180 degrees and started to blow a gale. Two friends came to rescue me. One reached me but we couldn't get back to shore due to the strong wind and current.

We were blown about 7 miles out to sea in a huge swell and were terrified as there no boats or anyone around. I began to despair.

A ship carrying butane called the Butacuatro from Bilbao in Northern Spain on its way to the Canary Islands passed just 200m away and stopped to save our lives.

We were lucky, very lucky. It only twigged in late 1984 that what I needed was a hand-held VHF radio in a waterproof case to call for help that day.

In 1988, a yacht owner came up to us at the London Boat Show and said our cases had saved his life when his boat capsized. We have heard that a number of times over the years. And we have also enjoyed hearing people thank us for our cases and give us valuable feedback.

In 1994 Aquapac was trademarked and we started manufacturing [before that we sub contracted]. In 1996 our patent for a waterproof closure was granted.

36 years later, we are still passionate about our products and our story continues. We still sell VHF cases.

The business today is run by a core loyal team who have worked together for more than 25 years.

BIODEGRADABLE TPU

Do you know how long it takes to biodegrade? Is 3-5 years correct? Have you carried out any tests?

There's no specific testing standard for TPU but tests have been carried out some years ago.

With heat and water acting as a catalyst, TPU will biodegrade faster.

However, if TPU lies in the ground by itself in a dry condition, it could last longer in the ground.

Between 2 to 5 years the TPU will start to biodegrade.

AQUAPAC TRADEMARK

FULL 5-YEAR WARRANTY

Who Is Covered, And For How Long?

Our warranty covers any consumer who owns this product.

It lasts 5 years from the date the first consumer purchased this product as new.

What Does The Warranty Cover? And What Does It Not?

- It covers defects in materials or workmanship. It does not cover defects caused by accident, animal attacks, neglect, normal wear and tear, improper care, or failure to follow our written directions (available on our website at www.aquapac.info).
- It does not apply if examination or testing show that an alleged defect does not exist.
- It covers this product only, and not any items you may put inside this product.

WE WILL NOT BE LIABLE FOR THE COST OF REPAIRING OR REPLACING ANY SUCH ITEMS OR FOR ANY OTHER INCIDENTAL, CONSEQUENTIAL, SPECIAL, OR OTHER DAMAGES.

SOME STATES AND TERRITORIES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

What Will We Do To Correct Problems?

We will repair any product that proves to be defective in materials or workmanship during the warranty period. In the event repair is not possible, we will either replace it with a new one or refund the full original purchase price - whichever you prefer. We will also reimburse you for any shipping charges we ask you to incur in returning any product that proves to be defective. This is our only express warranty, and this is our entire obligation, and your sole remedy, for any defects. In no event will we be responsible for reimbursing you for any amount greater than the original purchase price, plus any covered shipping charges.

How Can You Get Warranty Service?

You will find clear instructions on our website at www.aquapac.info Look for the link to Customer Service on the homepage. Or you can write to us at Aquapac International Limited, 7 Bessemer Park, 250 Milkwood Road, London SE24 0HG, United Kingdom.

What Must You Do To Keep The Warranty In Effect?

You will need to provide us with proof of the date of first purchase and your purchase price, so we recommend that you attach your receipt to this card. If you sell this product during the warranty period, you should give both the receipt and card to the new owner. Otherwise, he or she might be unable to get warranty service.

How Does State Law Relate To This Warranty?

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE OR BY TERRITORY.
