

DMF Declaration

To whom it may concern,

Here we declare that our desiccant products, including montmorillonite, silica gel, molecular sieve, active mineral and calcium chloride desiccant, do not contain Dimethy fumarate(DMF), neither in the sorbents, nor in the packaging.

But we do not promise to be liable for the situation that the DMF inside the desiccant was absorbed from user's product (including any appendant used in) in the process of the application and/or transportation.

Sincerely yours,

Wisepac Active Packaging Components Co., Ltd
